24 HR. EMERGENCY SERVICE

## COMPANY HISTORY

Preston Link Electric was started as a family run business with combined experience of over 70 years. The chief goal of Preston Link Electric is to provide quick response combined with professional quality work. Led by the vision of Jay Linkenhelt, Guy Roig, Matt Gera, and Debbie Gera we have expanded the company to provide residential, commercial, industrial and institutional services, as well as contracting.

Preston-link Electric Inc. is now one of the top electrical contractors in North Central Florida and we are constantly advancing to set new standards for our customers, our employees and our community.

## GENERAL SERVICE

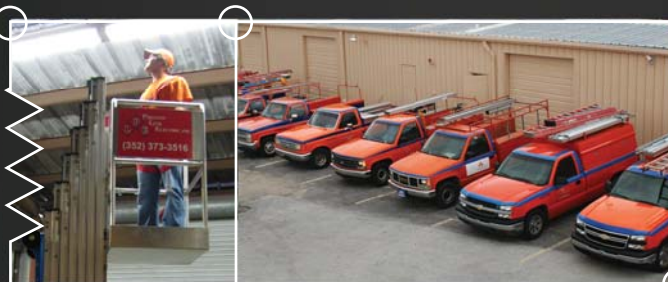

At Preston Link Electric, we can provide quick response to your general service needs. Our service technicians are proficient in any type of electrical replacement or remodel. We can repair and install exterior pole lights to design and install new lighting for your home or business. We can install a new lighting design plan for your commercial property, or quickly set you up with a favorite fixture and/fan in your office lobby.

## ENVIRONMENTAL SECURITY

One of our many services we provide is lightning strike inspections. We are quick to respond to insure that you have a quick analysis of the damage so you can contact your insurance company. During times of storm damage or high wind we have worked diligently to repair electrical services while working closely with public utilities to restore power as quickly as possible.

# PROVIDING TOP QUALITY SERVICE, ACCURATE INSPECTIONS & QUICK RESPONSE

*\*\*In both commercial and residential settings, we can add additional receptacle's, light fixtures, fire alarm, cable, data, and telecommunications to existing spaces, remodels, and new construction.*

Major service provider for construction of Town of Tioga Center  
(See other Accomplishments on back)

## HEAVY EQUIPMENT

The ability to serve our customers with ease and excellence is made possible with our in-house, power equipment. In most cases we can provide our services and equipment fee's in one convenient rate.
